#### Susie's Favourite Autumn Recipe: Warm Salad

##### **DIRECTIONS:**

Spay a shallow oven proof serving dish with light oil.

Arrange a layer of fresh autumn lettuce and toss a few finely sliced Spanish onion rings on top - repeat this about 4 times, then a layer of finely sliced tomatoes, a few black olives pipped and sliced, a few slices of red capsicum.

Use a potato peeler or cheese slicer to finely slice some delicious cheese and cover the top layer completely.

Finally add a good drizzle of Lime Juice Dressing (vinaigrette) all over the top. Place under an already hot griller and leave around 3 minutes until the cheese is bubbling and brown but not burnt.

That's it! Place on the bench for a few minutes to settle then slice with a sharp knife and remove from dish with a lifter.

This recipe is so useful, quick and great with any meal.
